Dear Professor Rasmusen,

The Faculty Board of Review received your materials and request for appeal of the sanctions that have been applied in your case. In so doing, we took note of the applicable procedural elements and timelines. According to [UA-03 Discrimination, Harassment, and Sexual Misconduct](#), your request for a Faculty Board of Review had to be submitted within 15 calendar days of the Appellate Officer John Applegate's decision. The AO's decision was dated March 17, 2021 which means that you are past the deadline to request FBR review. In effect, the deadline for your request was April 1, 2021. Given that you did not identify any relevant circumstances that would require special consideration of an extension of this deadline, we regret that we are not able to consider your case at this time.
